CAREER STATEMENT

"I feel that my greatest strengths are firstly my strong commitment to providing a professional service to all colleagues with whom I work. Secondly my skill at developing and maintaining a close working relationship with every company client, something which in turn helps me to gain an in-depth understanding of their individual needs. Thirdly my real passion for Web Development as a whole, an obsession which allows me to spot trends and develop best practice processes."

EMMANUEL EXCELLENT

PERSONAL SUMMARY

A skilled full-stack developer with a fervent passion for harnessing technology to solve complex problems, and who would like to collaborate with team of like-minded developers. Emmanuel is thorough and precise in everything he does, and his expertise lies in developing beautiful, modern, and responsive websites that cater to businesses' specific needs, showcasing his proficiency in crafting exceptional online experiences. As someone who takes responsibility for his own personal development, he is continually evaluating and upgrading his skills so that he stays at the cutting edge of software development. He is a natural problem solver, who has proven himself by successfully completing projects for IT consultancies, Students, web design agencies and other clients.

Right now Emmanuel is looking for a suitable position with a company where outstanding performance is recognized and where he can work on a variety of projects.

KEY COMPETENCIES AND SKILLS

Web Development

- Strong skills in creating user interfaces and user experiences using front-end technologies, including frameworks like React, Nextjs, or Vue.js.
- Ability to design and implement server-side logic, databases, and APIs using technologies such as Node.js, Python (Django/Flask)
- Expertise in creating websites that adapt seamlessly to various screen sizes and devices through responsive design techniques.
- Proficient in using version control systems like Git for collaborative development and code management.
- Knowledge of database systems such as MySQL, PostgreSQL, MongoDB, or SQL Server for storing and retrieving data efficiently.
- Understanding of security best practices, including data encryption, authentication, and protection against common web vulnerabilities like Cross-Site Scripting (XSS) and SQL Injection.
- Strong troubleshooting skills to identify and resolve issues in web applications, and the ability to optimize code for performance.

Personal

- Demonstrated expertise in specific technical skills relevant to the job, such as programming languages, software applications, or tools.
- The ability to analyze issues, identify solutions, and make informed decisions to resolve problems effectively.
- Strong written and verbal communication skills, including the ability to articulate ideas clearly and collaborate with team members and clients..
- The capacity to work collaboratively in a team, share knowledge, and contribute to achieving collective goals
- The capability to adapt to changing circumstances, learn new skills, and thrive in dynamic work environments.
- The ability to take initiative, guide a team, and provide direction, even if not in a formal leadership role.
- Consistently achieving goals and delivering measurable results in previous roles or projects.
